

HMP Erlestoke - Phase 2 Extension

The second phase of the redevelopment of Erlestoke Prison incorporating a new gatehouse building, a shared services unit, segregation unit and kitchen, was completed in 1993. The works were procured under Edition 2 of the GC Works form of Contract.

These two projects were run in tandem with two other refurbishments all overseen by Nick Hyams, in the role of Superintending Officer, whilst employed in a previous practice. The works were undertaken in a number of phases to allow for the uninterrupted ongoing activities in the existing establishment.
