

Guys Marsh Young Offenders Institution was redeveloped over a ten year period in three phases. The second phase included the design and construction of two House Units, an Administration, Visits and Gatehouse Building, the shared Services Unit - incorporating Chaplaincy, Education and Healthcare, a Farms and Gardens Unit and a Gymnasium.

The works were procured under Edition 2 of the GC Works form of Contract, over a three year period. Throughout the duration of the contract, the establishment remained fully operational.

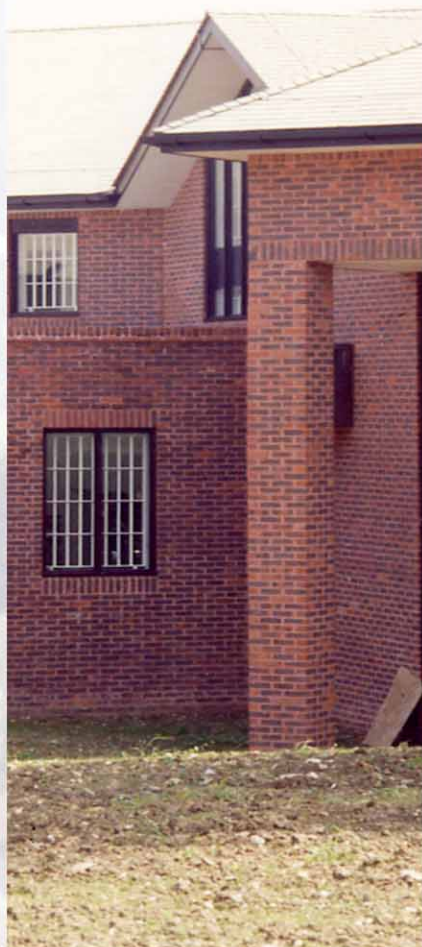

Guys Marsh was one of a group of four establishments that were effectively re-built over the period.
