

Group 4 Securicor are one of three consortia invited to qualify and negotiate the construction, financing, maintenance and management of a new 800 bed Private Rehabilitation Prison in Abu Dhabi in the United Arab Emirates.

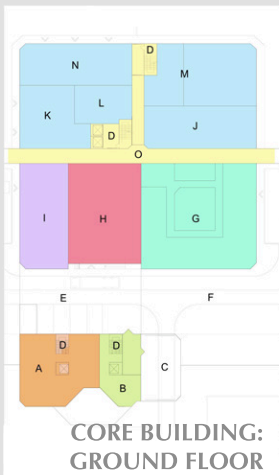

In April 2006 Brennan Williams Lester were invited to design the consortium's submission. Using our USA & UK best practice experience we were able to produce this unique design based on the client's brief for a £28 m secure complex to the equivalent of Cat. B standards.
